SCHOOL ACTIVITY

OUR VISION

Pursuit of excellence, experiential learning dedicated commitment towards quality education with an Indian Orientation. Founded and managed by distinguished members and humanaries of society, culded from various walks of life, the school trod on the path of progress with their visionary approach and lofty ideas. The school provides best possible management committee who are our constant beacon and source of strength, infrastructure and facilities for better education to the children without undue burden of parents. The exalted aim is to produce ideal members of society, ideal students with competent and balanced personality.

OUR MISSION

Our aim in the school is to help a child realize his own unique potential. An education which aims at the flowering of the child's physical, emotional, mental and spiritual personality. It is the progressive widening of consciousness which helps the child to manifest that within him, which is uniquely his, leading to an increasing satisfaction and success in individual living as also collective living, socially, nationally and internationally. Our endeavour is to impart education, which looks beyond the frontiers of formal education. It is, in fact a preparation for lifelong learning.

SUPPLEMENTARY CURRICULUMS

MATH LAB - The apt place to experiment & explore

Math Practice is a programme designed to improve students' conceptual understanding of Math through commonly available everyday material. This hand-on involvement encourages divergent and lateral thinking and therefore, innovation in daily life.

ENGLISH LAB - Platform to learn comprehensive & interactive english

Written Expression is a programme specially designed to develop writing skills, encouraging students to collaborate and create original texts, to critically appreciate them and to explore writing as a hobby and possible career options.

GRAMMAR PROGRAMME

Grammar Programme uses a natural learning process to improve grammar skills. It comprises worksheets, exercises, speech activities, listening, reading and conversation to help students master the English language.

DIAGNOSIS

Helping both students and parents achieve a better understanding of learning need, the diagnostic programme identifies academic strengths and weaknesses. The school and family then work together to bridge the gap.

LEARNING IMPROVEMENT PROGRAMME

The learning Improvement Programme includes board exam preparation for students of higher classes, especially, in cases of special need.

SUPPLEMENTARY CURRICULUMS

ENGLISH READING

The 15 Books Campaign is designed with a special agenda to encourage students to read more. The campaign has specific guidelines to ensure the creation of a universal reading culture.

SCIENCE EXPERIMENT AND APPLICATION

Aimed particularly at students from grades 1-8, the science experiment programme comprises kits that can be made into working models. The approach is hand-on and activity based, allowing students to acquire a deeper understanding of the subject.

SPORTS AND PHYSICAL DEVELOPMENT

The schools follow a structured curriculum prescribed by the NASPE (National Association of Sports and Physical Education) to identify students with athletic potential, with the help of our academics and professionals. In addition, students follow a year-round sport and physical education programme.

VISUAL AND PERFORMING ARTS

School offer training in contemporary dance, western jazz and tap dances, as well as Indian dance forms, based on student requirements. Similarly, children have access to music classes which include the privilege of being taught by experts in the field.

CAREER GUIDANCE/ AWARENESS

Students are provided with accurate and up-to-date information and guidance about career opportunities, chances to study abroad and competitive exams. So that they can make the right choice when it comes to life after school.

LEARNER'S BENEFITS

Experimental Learning

In order to create a sustainable learning approach, we combine our core and supplementary curricula through board-prescribed content and innovative learning approaches; contemporary teaching techniques and special programmes and examples from everyday life to develop students' understanding beyond textbooks.

Technology – Enabled Learning

Our technology based learning solutions help developing skills specific to the 21st century active engagement with the text, as well as conceptual, lateral and innovative thinking.

A CHILD – FRIENDLY ENVIRONMENT

Age-Appropriate Environments

Classrooms are designed to cater to the specific needs of students of all ages, providing them with a sense of security and consistency. Whether they are in kindergarten, middle school or high school, we ensure an environment tailor-made for their needs.

Sports Facilities

The schools provide expansive playgrounds as well – constructed sporting area ideal for a variety of games. As a result, there is both space and provision for all kinds of sports, as well as indoor games.

The Library

All our schools have a well – stocked library that includes periodicals, journals, magazines, newsletters, fiction, reference books and encyclopaedia. The library also offers integrated learning programmes that include phonics for pre-primary levels and literary classics for older students.

INNOVATIVE IN – CLASS PRACTICES

Our teachers encourage learning beyond the prescribed curriculum by conducting various programmes and techniques to create a better classroom environment. Some of these tools include:

GROUP ACTIVITIES

We believe that group activities help children to develop their communication skills and improve their interpersonal relationships. Collaborative learning techniques are used to improve team-building skills such as organization, delegation, negotiation, teamwork, cooperation and leadership.

FIELD TRIPS

Field trips help deepen a student's interest in a topic by creating a more hands-on, relevant learning experience. They also benefit teachers by giving them opportunities to generate attentiveness to a subject. We schedule many field trips in a academic year; they have proven to be a great asset in the learning process.

THE CLASS PYRAMID

Students who have shown merit in academics, co-curricular activities or social, are given a place in a 'class pyramid'. It essentially depicts the collective efforts and achievements of a class, and inspires students to work harder through healthy competition.

CIRCLE TIME

Circle Time is a social activity that encourages informal yet meaningful discussions in class, allowing students to exchange thoughts and learn from one another. The circle formation in which they sit ensures that each student can see all other members of their class. We believe that it raises their self-worth while encouraging them to be more open and trusting.

BUILDING FUTURE CITIZENS

At VICON, we have crafted an environment where students are always learning. This is not fuelled simply by technology, but by offering an ever-evolving and holistic education system; a school that offers all the facilities needed to bring out the best of every student, keeping their pace in mind. To help them go beyond academics and technical skills, we emphasize teamwork, critical thinking, creativity, communication skills and values so that children are prepared for the real world. As a result, we raise students to be capable of competing, innovating and taking their place in the world. A generation of smarter children for a brighter tomorrow.
